

BOYANUP STORE SALE

MARKET REPORT

BY MATT WATTS (0437 967 267)

Landmark South West agents yarded 867 weaners at Boyanup Saleyards on Wednesday 6th February 2019, being the last fortnightly weaned sale for the 2018-2019 season.

The quality of the yarding in weight & condition for this time of year was a hot topic of conversation on the rails between buyers, agents and vendors with a strong line up of steers in the 380-420kg drafts.

Feedlotters competed very actively to see pens consistently knocked down at 270-288c/kg, up 10c/kg on the last weaner sale. Most drafts of steers on offer were in the 330-380kg pens with this class realising sales of 266-284c/kg, down 5c/kg. over recent weeks grazier demand on light calves has steadily increased, this was evident today with a small yarding of 220-280kg steers tipping at 304c/kg to average 290c/kg.

The heifer yarding presented some very good euro infused calves between 380-420kg, these heifers appealed to several feedlotting programs to see values pushed up to 264-270c/kg. This trend continued onto some better lines of Angus & Murray Grey heifers to result in tops of 265c/kg on several occasions. Most pens in the 330-380kg sector realised values of 220-260c/kg and 200-265c/kg on the 280-330kg drafts. Under 280kg heifer lines met moderate grazier competition to result in most sales 200-240c/kg considering the large number of weaned calves sold over the last two months.

The shortage of fodder and water in some areas, and that most feedlots are near capacity, put that together with no live export demand it was really a successful sale.

Landmark credits its sale vendors on an excellent presentation of weaned calves, and extends its appreciation to buyers and underbidders, transporters, Landmark staff & agents associated with another successful Landmark Weaner Sale 2018-19 selling season.

REPRESENTATIVE SALE

DR & DJ ROCHE F/T	15	ANGUS VEALER STEERS	416kg @ 280c/kg	= \$1,163.87
